National Electrical Code: 2023 Update

FIRE ALARM CONTROL PANELS: 760.33

A listed surge-protective device (SPD) shall be installed on the supply side of a fire alarm control panel in accordance with Part II of Article 242.

Protection solutions

DTK-120X12

Type 2 SPD | UL1449 & UL1283

- 120VAC power surge protection
- Audible alarm with silence switch
- Form C dry contacts for remote monitoring of protection status
- 6-position mounting base for 2MHLP modules (up to 12 low voltage circuits)

DTK-120HW

Type 1 SPD | UL1449

- 120VAC power surge protection
- Approved for 20A circuit breakers
- SCCR rating of 10kA complies with NEC Article 242.8
- NEMA 4X weatherproof enclosure
- Diagnostic LED

DTK-DF120S1

Type 2 SPD | UL1449 & UL1283

- 120VAC power surge protection
- Audible alarm with silence switch
- Form C dry contacts for remote monitoring of protection status
- Separate LED indicators for power, ground and protection status
- Rapid-replacement surge module (DTK-DF120M)

DTK-120HWLOK

Type 1 SPD | UL1449

- 120VAC power surge protection
- Approved for 20A circuit breakers
- SCCR rating of 10kA complies with NEC Article 242.8
- Diagnostic LED
- Includes breaker lockout kit required by NFPA 72 Article 10.6.5.4
