

School Protection

Protect Critical School Systems From Power Surges

For over 30 years, commercial and industrial property owners have trusted DITEK to preserve their facilities, electronics, and data from the negative impacts of power surges.

Power surges don't just damage equipment, they disrupt learning by taking down the critical systems your school relies on every day.

In this digital age, schools are more dependent on electronics and electricity than ever. DITEK Surge Protection is a proactive investment that helps safeguard your most valuable building and technology systems. It's like insurance for the infrastructure that keeps a campus running, including communications, fire protection, security, HVAC, and critical electrical equipment. DITEK helps guard against both large and small surges, reducing the risk of failures, costly repairs, and downtime so your school can stay safe, comfortable, and operational.

REDUCE DOWNTIME

EXTEND EQUIPMENT LIFE

MITIGATE RISK

A VIDEO SURVEILLANCE

FEATURED PRODUCT:
MRJPOES SERIES

Protect IP cameras from damaging power surges while supporting high-speed networks in both indoor and outdoor installations.

B ACCESS CONTROL

FEATURED PRODUCT:
2MHLP SERIES

Maintain secure access to school buildings and restricted areas by guarding access control systems against damaging power events.

C COMMUNICATIONS

FEATURED PRODUCT:
NETS SERIES

Keep communication and emergency systems online so staff and students stay connected and informed, even during damaging power events.

D HVAC

FEATURED PRODUCT:
D50 SERIES

Safeguard your school's HVAC systems against damaging transient surges and spikes that can disrupt performance and shorten equipment life.

E ELECTRICAL

FEATURED PRODUCT:
D200M SERIES

Protect your entire school's electrical system from damaging power surges with built-in safety features to support reliable, ongoing operation.

F FIRE SAFETY

FEATURED PRODUCT:
DEFLECTOR SERIES

Shield life safety systems from damaging power surges and products alert staff immediately if protection is compromised.
